Continuing Education Scholarship Application for Parents, Siblings or Children of an Individual with MPS or ML

The National MPS Society is very supportive of continuing education for individuals who have a sibling or child with MPS or ML. We recognize the challenges these individuals and their families experience and would like to encourage them to continue with their education. Selected applicants are eligible for funding of \$500 for part time enrollment and \$1,000 for full time enrollment. The following information outlines the scholarship program.

The scholarship program is divided into two parts—Regular Program and Restricted Program.

The Regular Program is for students of an undergraduate college, university, trade or professional school pursuing any field of study. The Restricted Program, funded by Angel's Hands Foundation, is for graduate or undergraduate students in the following fields.

Medical Programs: medical education (physicians), nursing, physical therapy, occupational therapy, speech therapy, and other medical related fields.

Education Programs: special education, social work, and other education specialists that work with children with special needs.

All applicants will be entered into the Regular Program. If you are also interested in applying for the Restricted Program, please indicate so in the space provided on the application. Applicants who apply for the Restricted Program but who are *not* granted a restricted scholarship will be considered with the group of applicants applying for the Regular Program.
