

Corporate Sponsorship & National Partnership Opportunity 2014 Walk/Run Program

National MPS Society

Support for Families. Research for a Cure.

40^{years} of Achievements

Join our Team!

We need your help to promote the National MPS Society Walk/Run Program in 2014. This is a unique opportunity to develop a relationship and build a partnership with a special and productive nonprofit. A nonprofit whose mission is to save the lives of children suffering from Mucopolysaccharidosis (MPS) diseases. This capstone Society program occurs throughout the year and is the essential building block for research funding nationwide. *Experience the opportunity of giving by supporting critical research funding that will bring treatments to suffering children.*

Earlier this year we heard confirmations of the importance of the Society's research grant program. Did you know that several of our esteemed researchers got their start from Society research grants? And now they're getting major funding from the NIH! We are recognized globally as an important funding source for MPS research, especially in seed funding and in bridging young researchers into focusing their careers on MPS research.

*Did you know that 100% of the money you donate to research goes to research? I don't know many organizations that not only say it, but stand by it. That's huge. Plus, families choose where your research dollars go – general research or syndrome specific. **That is how it works at the National MPS Society and with your support we have raised over \$5 million dollars for cures.***

The Race is on . . . the Race to save . . . lives.

Sign up today to join the race and everyone is a winner.
