**2021 NATIONAL MPS SOCIETY
SCHOLARSHIP RECIPIENTS**

JOSIAH BAKER

TENNESSEE | MPS II

My name is Josiah Baker and I am going into my senior year of college at Austin Peay State University studying nursing. I was diagnosed with Hunter Syndrome (MPS II) when I was 8 years old and have been taking ERT ever since. When I am not studying or working, I love to spend time with my family, serve on mission trips, and hike. I look forward to a future of serving in the hospital and on medical missions.

MOLLY BIRMINGHAM

ILLINOIS | MPS I

Hi, my name is Molly Birmingham. I am 20 years old. I live in Chicago, IL. I got diagnosed with MPS I at 7 months old and had a bone marrow transplant when I was 11 months old at Duke University. I love to watch Duke basketball because Duke helped me live a longer and better life. I have one older brother named TJ. Shout out to my parents because they help me with school, medical appointments, and bills while always being encouraging.

CARSON COOK

CALIFORNIA | MPS I

Hi my name is Carson Cook. I am a student at San Diego State University, and I am majoring in Journalism with an emphasis on Media Studies, with the goal to becoming a Sports Analyst. I was diagnosed with MPS I in the fourth grade. My sister and I both were diagnosed with MPS I, and we have both been receiving treatment for about 10 years now. I am a huge sports fan. I started a sports podcast called "Stuck in A Dream," I write sports articles for a media site called "Simply Basketball," and I create sports content on Youtube and Tiktok. My goal is to become a Sports Analyst on TV like Stephen A. Smith and others.

LIBERTY HENS

NEW YORK | MPS I

I love my family they are my best friends! We have a great time together. I LOVE to read, and will be attempting to write a book in the future. I have a great love for old movies and the arts. I love iced coffee and all types of music. I consider myself to have a good sense of humor especially about myself.

CARLTON HUTCHESON

VIRGINIA | MPS I

I was born in Charlottesville, Virginia, but I have always been an avid Virginia Tech Hokies fan. I have lived in Ruckersville, and Richmond, Virginia. Now I live near Harrisonburg, VA, which has been my home for 14 years. In 2010, at the age of 10, I was diagnosed with MPS I, and I have weekly treatments for it. In 2018, I graduated from Broadway High School, in Broadway, Virginia. I was the President of my graduating class at BHS. Currently, I am in my third year at my local community college, and plan on graduating this spring. This fall, I aspire to transfer to Liberty University, in Lynchburg, Virginia. I have a younger brother, who is in 11th grade. My favorite activities that I enjoy doing in my free time include reading, playing golf, during the summer, and watching Virginia Tech football games

NATHAN ROMA

VIRGINIA | MPS VI

My name is Nathan Roma, and I am 24 years old. I was diagnosed with MPS VI when I was five. Through most of my life I have not let MPS dictate how I live. As a child I played a few different sports, my favorite being baseball. During all four years of high school, I was on my school's varsity swim team. I got my undergraduate degree at George Mason University in Applied Information Technology. After a few years of software development work I realized that was not the field for me. I really enjoy travel and history, and after some research decided to apply for a master's program abroad. I am now going to pursue a MSc in World Heritage Management & Conservation in Ireland at the University College Dublin.

CODY UNDERWOOD

CALIFORNIA | MPS II

Studying Business Administration and Applied Analytics at USC, currently lined up to work at PwC as a consultant for Cybersecurity, Privacy, and Forensics issues. As a San Diego native, I love the sun and outdoors, and I feel most content when I am surrounded by friends and family. I believe in the principle of struggle as a guiding force for growth and strength, and that the struggle that MPS has provided me has been a catalyst for my success in life.

ANNA BELLASSAI

FLORIDA | MPS IVA

My name is Anna (Annie) Grace Bellassai. I am studying biology at the University of Massachusetts. I have Morquio A Syndrome (MPS IVA). My goal is to one day help treat, prevent and possibly cure genetic disorders such as MPS and ML. My favorite thing to do is writing. I have just recently finished writing a novel that is currently in the process of being published. My book is called "Taylor's Bond" and I hope that it will inspire and motivate other people who have rare disorders. I live with my mom, dad, two younger sisters, and our dog, Molly.

SCOTT CAVANAGH

WASHINGTON | MPS IVA

I am a rising senior at the University of Washington, studying Mechanical Engineering. Throughout my time at college, I have stayed busy with many extracurriculars such as being the Head of Mechanical Design at the startup SENSOL Systems, a Student Ambassador for the club HuskyAdapt, and a member of the American Society of Mechanical Engineers. This Summer, I look forward to my internship at Thermo Fisher where I will be applying my skills to real world products such as medical devices and laboratory equipment. I would like to thank the Bardsley Family for helping make all of these experiences possible. The continued support from the Bardsley Family and the MPS Society drives me to do my best, and try to one day change the world!

PATRICIA ESPINAL

CALIFORNIA | MPS VI

My name is Patricia. I am 29 years and I was born with MPS VI in my native country of the Dominican Republic. Currently, I am a senior honors student at Dominican University of California, where I am pursuing a BA in Communication and Media Studies. For the past year and a half, I've been heavily involved with my school's service-learning program by being part of Digital Literacy, a program designed to support low-income Latinx immigrant parents in underserved neighborhoods by providing them with technological and digital skills to support their children during distance learning. I am also an active member of the MPS community. Whenever I can, I participate in advocacy efforts with the National MPS Society, and I am a member of the Society's Adult Resources Committee (ARC) and Napa's MPS Race for a Cure 5K Committee. What makes my life worth living is to give back, as so many have given to me. And while I know that I will be sitting in a hospital every week for the rest of my life, I also know that my life will be full of new experiences, adventures and new challenges that I will continue to face with faith, determination and the love and support of my family.

MARCUS GARVIN

VIRGINIA | MPS II

My name is Marcus E. Garvin. I am a freshman at The Ohio State University, in which I am pursuing a degree in Sports Industry. I am from Alexandria, Virginia. I attended T.C.Williams High School, graduated in the quarantine year of 2020. My dream profession is to work in the front office of an NFL team. One of my biggest accomplishments was to complete my first semester during a COVID-environment independently away from home. I am driven to achieve my goals and continue to beat the odds in many aspects of my life. Some of my hobbies are traveling, gaming, attending sports events, and hanging out with family and friends

BRADLEY ANDERSON

MINNESOTA | MPS | PARENT

I grew up in a military home in Omaha, Nebraska. It was pretty cool being able to travel around some when we were younger. I spent four years in Japan on the military base with my mom and brother, while my dad served. In high school I thought I wanted to go into the military as well, and eventually become a medic. However, upon finishing High School I decided to go to Indiana to attend a Bible college. It was there that I met my wonderful wife, Taralyn, and married her a year after graduation. Together, we decided to move to Minnesota to be close to her family. This first decision as a couple set us up to receive early intervention treatment for our lovely daughter, Isabel. She was diagnosed three weeks after birth, due to the infant screening that was just put into action in Minnesota. Right away we were able to receive ET, and she underwent a BMT in Minneapolis at Children's Masonic Hospital. The staff was and has continued to be absolutely amazing. This experience led me to pursue my career in the medical field. This scholarship will help me continue onward to achieving my RN, and better serve my community and my family.
