

# DO IT YOURSELF *Super Bowl Grid*

## 1-4 WEEKS OUT:

### 1. Confirm the date and select a venue

- Note kickoff time to ensure squares are filled prior to kickoff

### 2. Invite your friends

- Invite family, friends, and anyone you want to watch the big game with!
- Plan to ask invitees to bring their favorite appetizer to share during the game

## SUPER BOWL SUNDAY:

### 1. Print the empty 10x10 grid (attached)

- This provides 100 squares for participants to choose from

### 2. Assign one competing football team to the columns and one to the rows

- Note which team is representing AFC and which is representing NFC

### 3. Have your attendees choose which squares they want. Sell each square for a set amount.

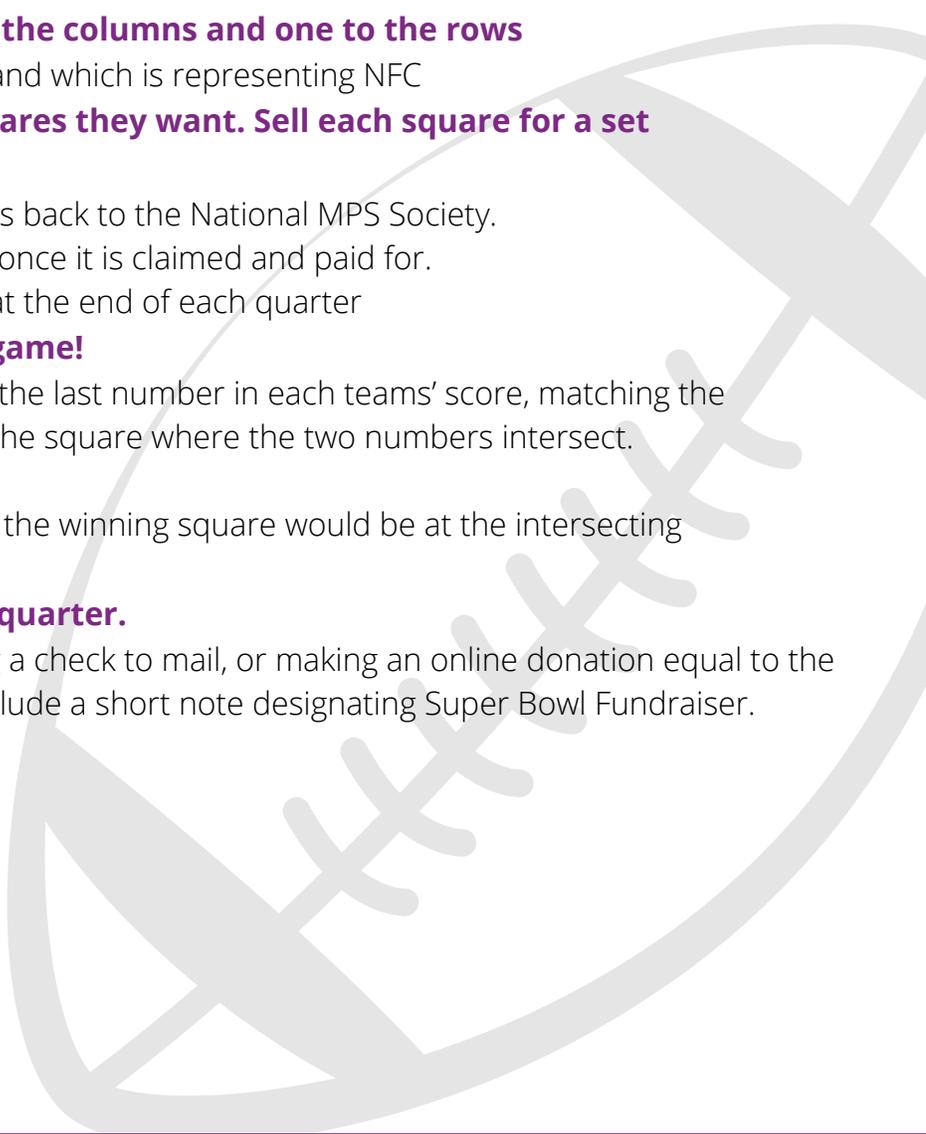

- We suggest donating 50% of purchases back to the National MPS Society.
- Write names or initials in each square once it is claimed and paid for.
- Winning numbers will be determined at the end of each quarter

### 5. Cheer for your team as you watch the game!

- Winners are determined by looking at the last number in each teams' score, matching the numbers to the grid, and highlighting the square where the two numbers intersect.
- For example:
  - If the score is AFC 14 - NFC 17, the winning square would be at the intersecting square of 4 and 7.

### 6. Distribute winnings at the end of each quarter.

- Mail your donation (we suggest writing a check to mail, or making an online donation equal to the value of the accrued cash.) Please include a short note designating Super Bowl Fundraiser.
  - **Mail to:**  
P.O. Box 14686  
Durham, NC 27709
